[New Vault Professional 2009 Portable](#)

AJAX

Ajax je technika, která Vám může pomoci zvýšit využitelnost a zrychlit aplikační webovské stránky tím, že mění v jednom okamžiku data jen části stránky tam, kde by bylo jinak nutné na základě požadavku uživatele natáhnout celou stránku. Díky technice Ajax, si mohou stránky Vaší aplikace vyměnit se serverem jen malou část dat bez toho, aby se prováděl submit formuláře. Ajax technika využívá následující technologie:

- **JavaScript**, který dovoluje vzájemnou vazbu s web prohlížečem a reakci na události
- **DOM** (Document Object Model) pro zpřístupnění a manipulaci se strukturou na HTML stránkách
- **XML**, který reprezentuje data přenášena mezi serverem a klientem.
- **XMLHttpRequest** objekt pro asynchronní výměnu XML dat mezi klientem a serverem.
