Lots of fun! Love the low poly graphics and the music is top notch and atmospheric! Really enjoy exploring all the planets! very chill game!. I am extremely disappointed that I don't love this game:

Pros:

- Cute and unique art style
- Interesting game mechanic ideas

Cons:

- Controls are very slow and awkward to use
- Game mechanics were executed poorly

I really believe this game had a lot of potential but the poor execution of the main mechanics really killed the experience for me. On another note, the pricing of this game is fairly reasonable so if you are not too bothered by awkward controls, this game may be worth your time and money.. 6/9 Would die again.. A really stylish, pared-down bunnyhopping\parkour game. SinaRun reduces the complex mechanics of bhopping\surf mods to the bare essentials without sacrificing the sense of speed and difficulty. This one is more focused on intense, high speed runs with multiple lines than technical parkour obstacle courses. Although your speed is easily maxed out with the benefit of a sprint key, the game uses a unique timed-jump mechanic (length of press controls jump height\distance... kinda like a 3D flappy bird game on speed :P). This leaves enough fine control to experiment with different lines and keep the skill-cap high enough so you can improve on your records. For this type of game, this is a brilliant compromise because it doesn't sacrifice the speed\flow for the sake of simplicity, and manages to scratch close to the same itch as notorious mods like Quake Defrag and CS surfing without the huge learning curve barrier. Still needs some tuning, bug fixes and more maps but for <3\$ it's well worth checking out.. A fun and fast car with great handling. It also looks great.. An interesting passtime to mix worms and golf.. Ignore the negative reviews. You either like this style of game or you do not. If you do, then you will like this game even though it has old school graphics. It's pretty fun and it is not pay to win. You accumulate the in game currency quickly. The only problem I have so far is that I can't seem to figure out which dialog choices give you specific attributes. But it doesn't matter at first because you will play the game to earn currency to unlock other heroes and you will start over.. I dearly love independent developers. This game takes a few notes from Tron, and places you in command of a digital tank, in a digital universe inside the very computers we use everyday. I always wanted to drive one of those Tron tanks, and this game hits the nail perfectly on the head. Progress through the story and use strategy, and smarts, to complete the hacks, keep your base alive, and help combat the enemy. I find the game a little short, but it's a fantastic ride nonetheless, and I understand this is only the prologue...I can't wait!
. By this game, we can get new experiences.

commun with animals, and be concerned about each of them,
When was it born? What is this name?

Everything around me is not just resources like background.

I enter into another world of ISLET, and make so many relation between player and land.

I really recommend ISLET to you.

ArmA 2 is love ArmA 3 is life.. This is a cute little game with adorable art and chock-full of pop culture references. Definitely worth a buck for a fun little experience. It is short - took me ~2 hours, but I kept getting distracted.
. Female protagonist. Good little story. And running over people is strangely satisfying.
The bonus levels are especially fun and you can get all achievements in around 3-4 hours of gameplay.
Definitely recommend this game for a little stress relief.. I can relate to Alte, because like her, I am prone to self-destruction..
Open world PVP, no safe places, and full loot (it doesn't hurt that bad stop crying). Why did it take 15 years to bring back great online gaming? 10/10. Of the 3 Star Wolves games, this one actually plays the best and looks the best. Even so, I still find it cumbersome. Bad tutorial, bad combat, etc.. A short, somber third-person walking simulator with themes of childhood trauma. You already know if you're the kind of person this will appeal to...
